Subtotal G – Contingency					€ 4,355	
TOTALE BUDGET VALUTAZIONE FINALE INDIPENDENTE					€ 91,447	

Methodological notes

In addition to the daily base rate, the team leader's daily allowances for travel to the program's countries of interest were calculated using the national evaluators' daily rate; the same applies to the three-day debriefing in Delhi.

The evaluation team's daily allowances were calculated using the official United Nations rates (<https://www.icsc.un.org>, accessed April 28, 2026).

AI was used to fine-tune the table and the cost voices according to exemplars chosen from authoritative sources from the web (see [here](#) and [here](#))
