

MONITORING AND EVALUATION CERTIFICATION PROGRAMME

Giammaria Trimarco *Working for youth in Genobia*

Summary of the logic model, presentation of the main stakeholders and assumptions

Ingredients to inform your selected project*

** The term project is used, but the intervention selected can be of a different nature (a service, the component of a programme, a sub-project, etc.)
Please refer to the instructions on the e-campus for clarifications.*

1. Describe the project background- 1

- **Title:** Working for youth in Genobia
- **Beneficiaries:**
 - **Direct beneficiaries:**
 - Unemployed or underemployed youth in Bissako and Genobia urban areas
 - Disadvantaged youth in Genobia rural areas
 - Educated youth who have difficulty entering the job market in Bissako urban areas
 - Youth not in education, employment, or training in Bissako and Genobia rural areas

1. Describe the project background-2

- **Wider society / Indirect beneficiaries:**

- Vocational training schools
- Teachers and educational personnel
- Employers' associations
- Financial institutions providing credit
- Rural communities
- Society at large (strengthening of the social economy and the attraction of local investors, reduction of the exploitation of natural resources, enhancement of national productivity, contribution to breaking the intergenerational transmission of poverty)

1. Describe the project background-3

- **Their main needs to which the project respond:**
 - Lack of access to vocational training
 - Lack of knowledge, skills, and competencies required by the labor market
- **Main change that the project should generate for beneficiaries:**
enhance the employability of youth in Bissako and rural areas
(regarding formal jobs and entrepreneurship)
- **Place:** Bissako and rural areas of Bissako
- **Project budget:** \$1.941.000
- **M&E budget:** \$38.820 - \$97.050

2. Introduce the main stakeholders- 1

- **Who is the implementing organization(s)?** The implementing organization is EducationAfrica, a non-profit organization operating in the education and development sectors. It focuses on capacity building, access to education, and system strengthening, aiming to improve access to quality education and enhance employability by designing and implementing innovative, scalable solutions. The Project Management Unit (PMU) is directly responsible for the intervention.

2. Introduce the main stakeholders- 2

- **Who are the implementing partners?**
 - Consulting firms that assess the needs of teaching personnel
 - Ministry of Labour (MOL), which issues the decree authorizing the intervention
 - Trade unions, employers, the Ministry of Labour, and vocational training institutions, which agree on the project proposal and plan
 - International Bank and the Government of Genobia, who signed a credit agreement to support the project

2. Introduce the main stakeholders- 3

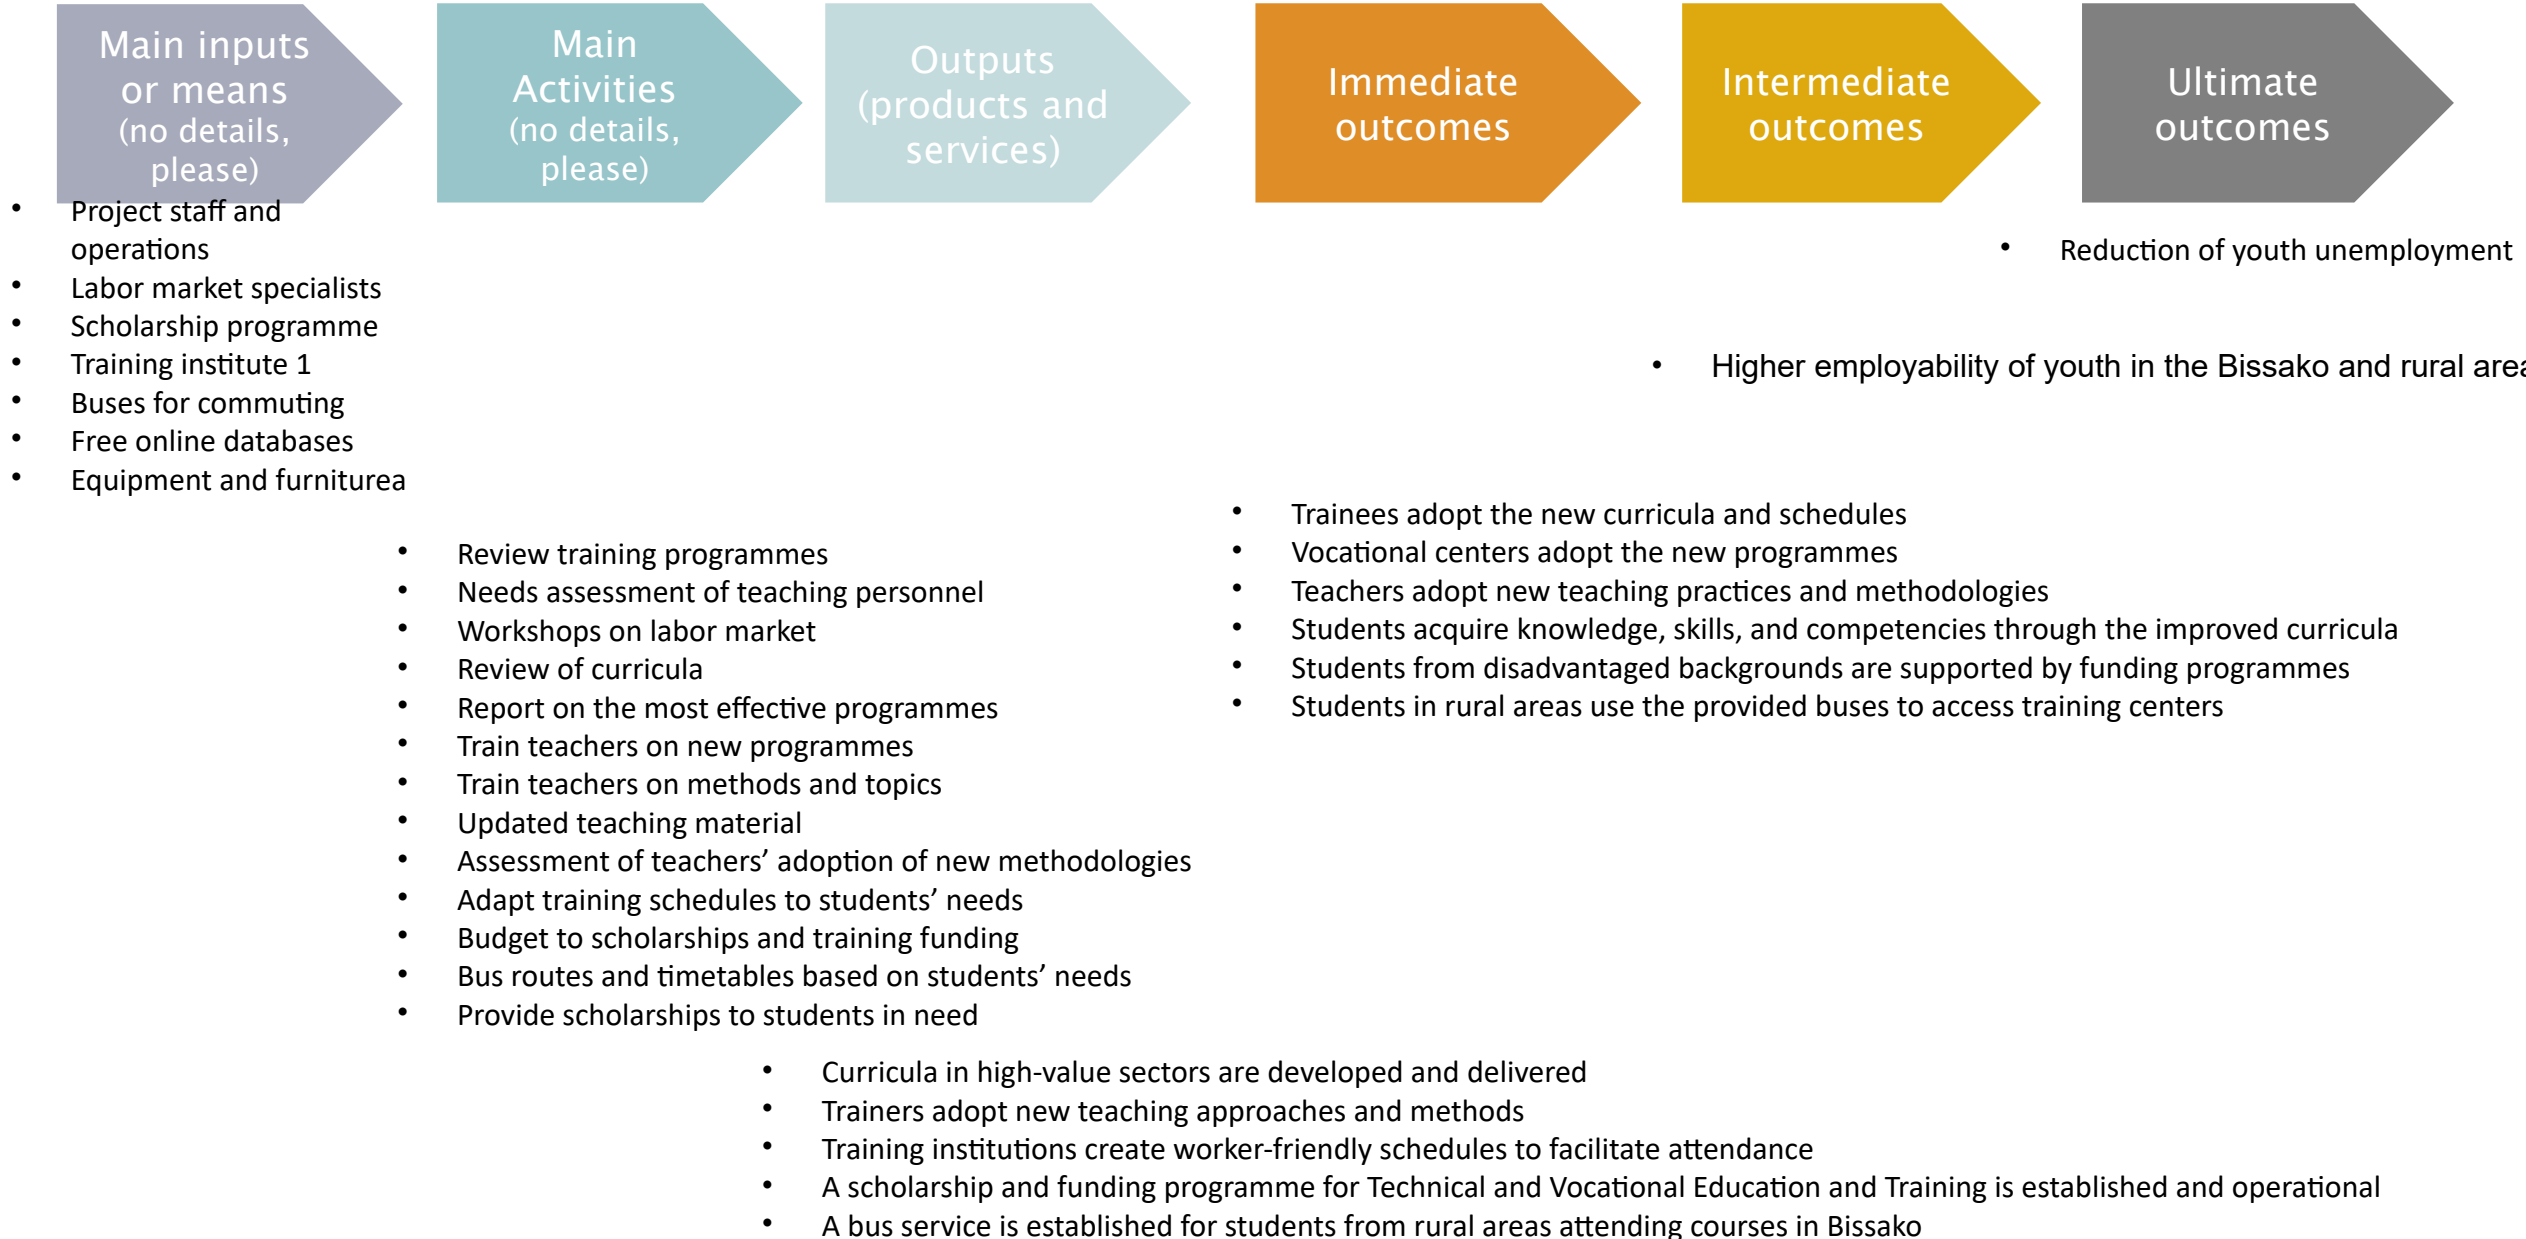

- **Who are the intermediaries?**

- Vocational training institutions and teachers, who will be the recipients of training interventions and implementers of the renewed training programs
- Bus company, responsible for organizing bus routes and timetables to enable commuting between rural and urban areas and access to vocational schools for students

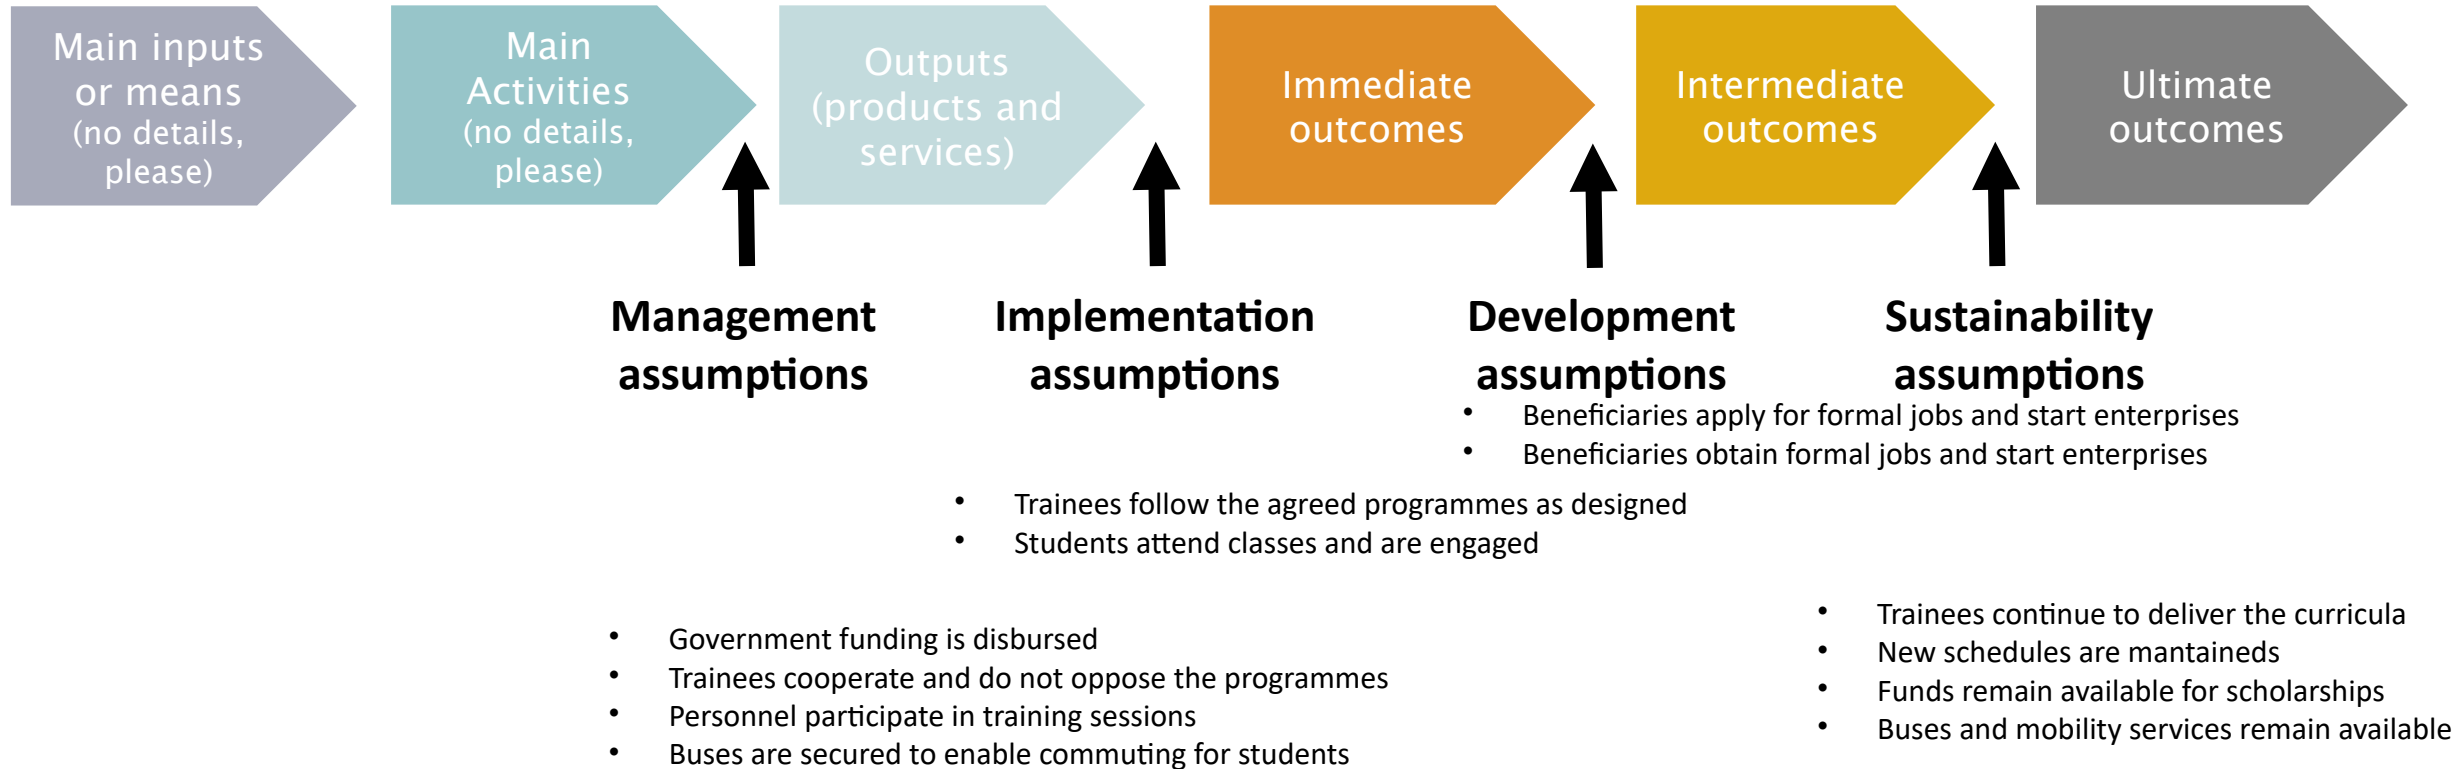

2. Introduce the main stakeholders- 4

- **Who are the ultimate beneficiaries?**
 - Unemployed or underemployed youth in Bissako and Genobia urban areas
 - Disadvantaged youth in Genobia rural areas
 - Educated youth who have difficulty entering the job market in Bissako urban areas
 - Youth not in education, employment, or training in Bissako and Genobia rural areas

3. Reconstruct (or present) the logic model

4. Identify or present the main assumptions

5. What are your main indicators, if any
