

I. The M&E stakeholder assessment table

I. Purposes, users, intended usages

Who	Why (purposes)	What Main criteria and key questions of concern	When	How (format)	M&E Role/Function
Project Management Unit	To support decision-making, strategic planning, and oversight of overall project performance	Overall project implementation progress Efficiency: Are resources used to deliver timely and cost-effective results? Effectiveness: Is the intervention achieving its intended results? What is the completion rate? What are the costs for the beneficiary?	Monthly, quarterly, annually	Indicator Tracking Table; quarterly project reports; annual strategic planning reports	Management and oversight of the M&E system
Youth enrolled in the programme	To raise awareness of the intervention and foster a sense of progress toward their goals	Learning objectives of the semester and their practical application For which job positions are the courses attended during the semester useful? What is the level of student engagement? Have any participants dropped out? Do students perceive themselves as employable?	Each school semester; annually	Brief notes and booklet; online surveys; feedback forms	Direct beneficiaries
Vocational training institutions	To update training programmes and student learning content; to support	Synthesis of results, employability outcomes, and	Annually; each semester	Training Programme Update Sheet; Teacher	Implementing partner; intermediary

	teacher development and propose curriculum improvements	alignment with labor market needs Trainings received and remaining capacity-building needs Updates on training content and curriculum changes		Capacity Building Log; Annual Training Outcome Report	
Teachers of vocational training institutions	To update teaching methods and training content based on labor market assessments and self-assessment by the teachers	Synthesis of results, employability outcomes, and alignment with labor market needs Capacity-building and training needs Updates in training content Perception of skills mismatch	Annually; each semester	Training Programme Update Sheet; Teacher Capacity Building Log; Annual Training Outcome Report Feedback note	Indirect beneficiary
Bus company	To update bus routes and adjust the number of buses required to meet demand	Number of people requiring transport services Urban and rural areas to be covered by bus routes Estimated number of seats required for each route User feedback on service punctuality and reliability	Each semester; annually	Semester report; annual report; user feedback forms	Implementing partner; intermediary
Ministry of Labour (MOL)	To produce statistics on young people employable in the formal labor market; to assess availability of qualified personnel; to ensure accountability	Currently enrolled students Students who have successfully graduated Information on study programmes Availability of qualified	Annually; each semester	Student & Program Outcome Tracking Sheet; Graduate Employability Report; feedback notes from graduates on employment or	Implementing partner; intermediary

		personnel for internships or placements Employment rate post-graduation		entrepreneurs hip disaggregate by sector and region	
Consulting firms	To maintain high-quality training programs aligned with teachers' needs. To address any critical issues promptly. To implement recommended updates for continuous improvement.	Ensure that course content meets teachers' expectations. Identify any issues or gaps in the training program. Promote necessary content updates suggested by teachers.	Annuale	Via the Student & Program Outcome Tracking Sheet. Via the Graduate Employability Report.	Implementing partner
Trade unions	To identify the skills available in the labor market and those in demand To provide workers for employment or internships To represent the interests of young people	What professions can these students pursue? Availability of internships or placements Internship placement rate job placement rate	Annually; each semester	Semester and annual reports on professional opportunities created Student & Program Outcome Tracking Sheet Graduate Employability Report Feedback note from graduates	Implementing partner
International Bank	To ensure accountability	Amount of funds utilized Requests fulfilled and requests not fulfilled Project progress from a financial perspective Use of available funds Enrolled beneficiaries Graduated beneficiaries and their presence in the labor market Beneficiaries in formal employment or	Annually; semi-annually; quarterly	Project Annual Report Annual Financial Statement Semi-annual Financial Statement Quarterly Financial Statement	Implementing partner

		running a business			
Government of Genobia	To ensure accountability and update on the project's progress	Project progress status Use of funds Enrolled beneficiaries Graduated beneficiaries and their presence in the labor market Beneficiaries in formal employment or running a business	Annually; semi-annually	Project Annual Report Annual Financial Statement Semi-annual Financial Statement	Implementing partner
Ministry of labor	To ensure accountability and update labor market statistics To prepare policies and programmes for the sector	Project progress status Use of funds Enrolled beneficiaries Graduated beneficiaries, their presence in the labor market, and their skills Beneficiaries in formal employment or running a business Employment rate by skill-set	Annually; semi-annually	Project Annual Report Project Semi-annual Report	Implementing partner
Ministry of Education	To ensure accountability and inform the future implementation of policies in the education sector	Disaggregated data by school region and education level Trends and outcomes of implemented educational interventions Insights on the effectiveness and relevance of the programmes Feedback from schools on the usefulness of the reports	Annually; semi-annually	Project Annual Report Project Semi-annual Report Feedback from schools to assess the usefulness of the reports	Indirect beneficiary
Registrar-	To estimate the number of	Requests from individuals	Semi-annually;	Certificate & Business	Implementing partner

General's Department	certificates for entrepreneurship likely to be requested To promote less stringent regulatory procedures	intending to start a business Trends in certificate demand Compliance with updated regulatory guidelines	annually	Request Tracking Sheet	
Participating Banks	To ensure that disbursed funds are properly used To guarantee continuity of support for students receiving scholarships To ensure the possibility of allocating funds to all eligible applicants To maintain financial accountability	Number of students requiring scholarships Whether scholarship recipients are still enrolled in the program Any additional requests for funds Proper use of disbursed funds	Each Semester	Financial & Beneficiary Update Sheet	Implementing partners and Intermediaries They directly finance the project su mandato del Gouvernement and di international Bank
Other Development Agencies, Charities and NGOs already involved in the field	To identify potential areas of synergy and collaboration To support expansion of the project without disrupting its current implementation	Is the project continuing? In which areas is the project active? Is the project expected to expand to other areas? What is the anticipated duration of the project? Monitoring of potential synergies and duplication across projects	Annually	Project brief / Update note	Potential Indirect beneficiaries/ implementing partners

II. M&E system scope definition

Guiding questions to consider all dimensions to establish the system scope

Guiding questions	My observations
Geographical dimension: Are you going to consider the entire geographical space of the project/programme? Think of accessibility, level of uncertainty, etc. If yes, please explain in a few lines. If no, please provide the rationale and justifications?	Genobia is a relatively small country, comparable in size and population to neighboring Senegal. The urban area of Bissako covers 234 km ² and has a population of 2 million, which is small compared to nearby countries and capital cities. Although the metropolitan and rural areas of Bissako are extensive, the presence of several key commercial hubs easily accessible from the surrounding areas — Xville, Ytown, Zburg, Ecity, and Rville — makes the management of transport routes from the country to the city – and back - relatively straightforward and easy to implement.
Target group dimension: Are you going to monitor and evaluate the situation of all groups targeted by the project/programme as beneficiaries?	Monitoring and evaluation will focus on the vocational centers involved and the direct beneficiaries enrolled in them.
Time dimensions: According to you, how the project/programme duration impacts on the design of your M&E system?	The M&E cycle lasts one academic year and is cyclical. Since the minimum time unit to implement the intervention is a full vocational training cycle (two years), the intervention's duration significantly affects its design, with the majority of activities distributed at the end of each semester.
Budget and human resource dimensions: Please describe the likely scale of the budget available for M&E, if any, and the human resources that will likely be assigned to carry out the M&E-related activities.	The budget allocated for the M&E system amounts to 2% of the total project budget (\$38,200) and primarily covers costs related to staff training for data collection and the data collection itself in the selected vocational centers. The M&E office will consist of an M&E Specialist, who will report directly to the Project Manager, supported by a MEAL Assistant and an Intern. They will also be responsible for training and supervising the data collection staff in the vocational centers, totaling 10 operators, with each operator covering their respective vocational center.

III. M&E activity planning table

M&E requirements

Guiding questions	My M&E requirements
Are there any M&E legal requirements? Conduct a quick review of the M&E policies and project agreements in order to highlight the legal or mandatory M&E requirements for your project/programme.	The preconditions for the program's initiation have already been satisfied: • MOU signed by the constituents and key stakeholders (Ministry of Labour, trade unions, employers, and vocational training institutions) to agree on the project proposal and plan — September 2020 • Credit agreement signed between the International Bank and the Government of Genobia to support the project — October 2020 • Ministerial decree ordering the creation of the Project Management Unit — December 2020 • Adoption of the Project Operational Manual — December 2020 • Deposit of the Government counterpart (15%) — January 2021

Make a first plan of your main M&E rituals

M&E activities/events	Timing/frequency	Responsible person(s)	Estimated budget (The budget can be both in financial resources or in staff-time / effort)
<i>(These examples below can guide you, you don't need to include all of them.)</i>			
Baseline survey	Before the start of the intervention	MEAL specialist MEAL assistant	2 weeks for each vocational centre, 1 field operator each for data collection and analysis
End-line survey	Six months after the end of the second year (a full cycle of vocational training)	MEAL specialist MEAL assistant	2 weeks for each vocational centre, 1 field operator each for data collection and analysis
Annual reviews	Annual	Project manager MEAL specialist	1 week for data wrangling and document drafting
Midterm evaluation	At the end of the first year of the intervention (an half	MEAL specialist MEAL assistant	2 weeks for each vocational centre, 1 field operator each

	cycle of the vocational training)		for data collection and analysis
Final evaluation	One year after the end of the second year (a full cycle of vocational training)	Project manager M&E specialist M&E assistant	4 weeks for each vocational centre, 1 field operator each for data collection and analysis
Project and process monitoring	weekly	M&E specialist M&E assistant	Ongoing
Beneficiary monitoring	Semi-annual Annual	M&E specialist M&E assistant	2 week for each vocational centre
Project/programme management reports	Monthly	Project manager	1 week
Annual reports	Annual	Project manager M&E specialist	1 week
